

Geranium 'Rene Mace'

Selling

April to May

Features

Green foliage, with violet red flower striped black, from May to October.

Benefits

A fast growing compact shrub, which makes a superb garden plant. Masses of flowers make it consistently colourful. It is hardy and resistant to drought.

Story

This variety was bred in France, for its dramatic flower colour and veining, and was introduced around 1999. The plants are grown in tunnels on our nursery in Worcestershire.
