

Lavandula 'Hidcote Blue'

Selling

May to June

Features

Silvery grey foliage, with masses of deep purple-blue flower spikes from late Spring to Autumn.

Benefits

Compact, dwarf rounded shrub which can be used for hedging, pots or in a border. A very popular variety. Aromatic and attracts bees and butterflies.

Story

Originally from the Mediterranean regions, even though it is commonly known as English Lavender, where it grows up 1.8m on dry, sun baked hillsides.
