

Lavandula 'Tiara'

Selling

End of April onwards

Features

Grey green foliage, deep blue blooms with white flags from late Spring to Autumn.

Benefits

Very aromatic foliage with fragrant flowers. Attractive to bees and butterflies. An abundance of flowers, it is ideal for a container. Bushy growth habit.

Story

A variety of French Lavender, also known as Butterfly Lavender. This variety was bred by nurserymen in New Zealand, and released in 2005.
